

norament[®] grano

MODERN POSSIBILITIES.
ENDURING STYLE.

nora[®]

Proven performance refreshed with a contemporary palette.

Create a foundation of lasting performance with norament[®] grano, premium rubber flooring that elevates interiors with unparalleled durability and versatile design. This modern take on a timeless stone aesthetic combines supportive form with flexible function in a palette of over thirty colors – from cool, calming neutrals to bold, vibrant tones. Its dense surface structure delivers demonstrated strength under pressure, standing up to even the toughest workplace conditions without sacrificing style.

Complete performance for industrial function

For hard-working spaces that support people and processes, norament grano offers a comprehensive solution for your facility. From high pressure-loads of heavy equipment in production areas, to required GMP-compliance and essential electrostatically dissipative properties in electronic manufacturing halls - norament grano will be tough enough to withstand your most diverse demands.

Experience the secret of a perfect combination

Aesthetic – Timeless inspiration for today's architecture

The redesigned palette of norament grano offers contemporary sophistication with enduring appeal. Explore a range of thirty-two new colors that provide a harmonious balance of base shades and color accentuated granules.

Performance – Enduring strength for decades

Through a unique manufacturing process norament grano reaches an almost indestructible form that results in an extraordinarily long life. United in one product you find the durability of a stone combined with the advantages of ergonomically cushioned flooring. This leads to comfort and acoustic advantages such as enhanced walking and standing ease as well as a quiet environment in indoor spaces. A seamless installation plus an uncoated surface reduces costs and contribute to simplified maintenance offering added value throughout its lifetime.

System solution – A Holistic approach to support your vision

Experience the possibility of being able to cover a wide variety of functional areas with different requirements by means of one design. Choose stairtreads and nosings or electrostatic dissipative options and see how cross-functional flooring benefits simplify decision-making without sacrificing style.

Enduring solutions for education spaces

Create supportive and durable learning environments for kindergartens, classrooms and university spaces with norament grano. The environmental compatibility contributes significantly to the well-being and the productivity of both students and teaching staff. Advanced sound absorbing properties, optimal standing and walking comfort as well as slip resistance safety and improved indoor air quality ensure a positive learning environment.

Ergonomic support for healthcare environments

A safe, quiet, healing environment that delivers slip resistance and ergonomic support are the most crucial requirements for a patient's recovery and outcome. From operating rooms to the intensive care units right up to recovery rooms - discover all the possibilities for healthcare with norament grano. Its dense surface enables easy cleaning and provides hygienically seamless surfaces.
